# Evapco Smart Condense

The Evapco Smart Condense is the most environmentally responsible evaporative condenser available.

It monitors water consumption, provides feedback on overall condenser operation, and notifies the user about maintenance requirements.

Smart Features	
Motor Watch	Upcoming service requirements notifications
	Pump runtime and duty cycle monitoring
	Fan run time and short cycle notifications
Green Reporting	Monitors power consumption
	Provide reporting for internal energy audits
	Waste heat energy calculations
Water Reporting	City water usage and monitoring
	Water Consumption vs. Heat Rejection ratio calculations
Safety Monitoring	Monitor and report unsafe discharge pressure
	Monitor and report unsafe water temperatures
Easy to use interface	Touchscreen panel-mounted display
	Remote access through the internet
	Remote alarming and monitoring capabilities
